WHY CHOOSE US?

Sharing tips of the trade from the professionals

Our programs are written by high performing sales professionals. They are in the field, selling. They are at the top of their game.

The trainers share tips of their success to enable you and your team to Grow your Business FAST. They have over 20 years sales experience each and are also Trainers of NLP (Neuro Linguistic Programing), Hypnotherapy, Time Line Therapy™ and Coaching.

Our philosophy is to assist our clients to focus their attention on the client (not on themselves). This means, as sales people, we pick up everything the client does and says (and doesn't do or say). This 'outward' attention means we get to understand our client much better, allowing us to create solutions which fulfills the clients'

need and delivered in a way which aligns with how they operate. **This ultimately separates you from competitor offerings.**

What's the outcome?

When your team's focus is 'outward' they sell with integrity. Their clients achieve their goals - and so become loyal and refer you on. Your sales team know how to maximise every opportunity, up selling and growing their business quicker. Sales people become empowered, motivated and full of confidence.

Why is it so successful?

It's simple. It's obvious. It's easily remembered and it's flexible.

In every workshop we've run, participants say "this feels exactly right. It feels like the professional way to sell and if I were a client and someone approached me like this I would buy from them".

WHO BENEFITS?

Our sales training works at every level

Whether you're just starting out or you've been in the industry for your entire career, we have training to suit your level of knowledge.

THE BEGINNERS

These people are fresh to sales. Whether they're starting in a new career, moving roles or have a couple of years under their belt and looking to expand their sales knowledge - we help set the beginners up with the right habits from the very beginning. We guide them through the essentials and stretch their thinking on sales so it becomes easy to grow their business fast.

THE EXPERTS

They are years in, with lots of training.

Our courses help The Experts polish up on an idea, present a new concept from an angle they have never considered and break them out of default behavior to find further revenue.

Firing up creativity in brain cells is exhilarating - they will gain renewed energy and drive into their job.

THE OVER ACHIEVERS

So, they are already blasting their target each month. Imagine them being able to understand how that client operates, how to read their thoughts!

And that's just the beginning! Give them some skills that will literally, blow their minds! Giving them even more reason to get out and get in front of potentials.

STAGE 1

SALES ACCELERATOR

Most popular – great for quickly up skilling your team to hit the ground running with powerful techniques across all the essentials of finding and converting a sale. Expansion of skills to sharpen the tools and expand the knowledge of even the most experienced sales person.

2 days

Level: beginner through to Sales Manager.

Summary: 7 foundations of the sales process.

Exploration, Listening, Objections, Negotiation, Managing Clients'

Expectations, Business Development, Presenting.

TOPIC 1: Exploration & Selling

Why do people buy? How to effectively sell your product, service or idea. How to be the expert. How to be professional.

Essential underpinning to every business transaction, critical to the success of the business.

Covering: Exploration like you've never known it before. Mind-shift on how to elicit information from your client. Exploration of the clients needs, by framing and questions that keep that client discussing what they need - which arm you with more than 20 core areas of information including:- information, needs, drivers, trust, value, beliefs, Internal Representations, how to be creative... (and more)!

Once elicited, this puts your sales person in the most professional, powerful position imagined. Allowing them to simply and easily respond by feeding back the right solution in the client's language and style and in a way which makes total sense to the client.

Outcome: Total confidence in ability to put forward a solution (delivered in the clients style) which is so perfectly aligned that you get the business. You are the professional. You are the Expert. Your solution is the one that is now obvious. Get that contract out there and then. The deal is done.

TOPIC 2: Listening

The backbone of all communication.

Covering: We are all listening aren't we? Exercises that shake up that theory.

Outcome: Awareness of when I'm actively listening and when I'm in default mode. How your client listens and what to do to ensure they hear what you are saying in the way you want them to.

TOPIC 3: Objections

Understanding what this really means and how to convert into a sale.

Covering: Different types of objections. Understanding what the objection means. What about if the potential client keeps smiling and saying 'I'll be in touch' but that doesn't happen - those that can't be straight with you...

Insight to how we feel and react to feedback and objections.

Outcome: Embracing objections and using them to forge more meaningful relationships that get the sale.

TOPIC 4: Negotiation

Successful negotiators are created not born.

Covering: Preparation, techniques, styles, mindset.

Outcome: Confident, successful negotiators who have a plan of action and all bases covered. Professionals who shift the focus off price and onto aligning the perfect solution (watch how the price negotiation just disintegrates or becomes less important to the client).

TOPIC 5: Managing clients' expectations

Service excellence. Managing tricky situations.

Covering: Servicing excellence, communication styles. Buying Signals. Building client relationships. How to ensure your client is sold on all your products all the time. How to manage them their way. What to do if it's all unraveling and the wheels are falling off...

Outcome: Understanding what is motivating your client and how they want to be communicated with. Effective use of emails, phone calls and meetings.

TOPIC 6: Business Development/Prospecting

Essential to the growth of your business. How to make prospecting easy and comfortable.

Covering: Energy. Mindset. Who to target, when, how, what to say, what to do! How to convert, Relevance, Timing, Emails, Phone calls, networking, cold calling.

Outcome: Someone who embraces prospecting with a clear head, consistency and genuine enthusiasm.

TOPIC 7: Presenting

Structure to ensure seamless delivery of your message.

Covering: Plan, prepare and execute. Structure, purpose and clients expectations. Observing and adapting. Next Steps.

Outcome: Powerful presenters who understand how to embed a message (that makes sense to your 'audience') with clarity.

Whether you are after a pumped up session that has them energised or a powerful impactful sales session, we can tailor an event to your exact requirements. This could be for any length of time. The duration and material is customised.

Skilled at getting everyone engaged and learning, our event sessions are professional, known to quickly up skill, practical, stretch every level and are interesting and fun.

We are skilled at taking any level of group (most are mixed levels) and taking them on a sales journey that they have not had before. You

ANY SIZE GROUP

We tailor all our topics and material for you and your team. Discuss with us ways in which your group can quickly expand their sales skills. We often have a business owner and one or two others come and run a tailored workshop. Delving into exactly what you need in order to be successful.

We take time to understand your business, your objectives, your goals, your team, your customers and then provide you with a powerful sales program that assists everyone in rapid advancement. Business Growth becomes easy. Everyone in the organisation speaks the same language, everyone knows how to support each other.

Finding and converting clients becomes easy. Retention becomes easy. Referrals become easy.

CONTINUING SALES LEARNINGS

FURTHER DEVELOPMENT

Keep everyone evolving, up skilled, fresh, motivated and energised... keep them on the front foot. Regular Sales Training keeps the team on the front foot, competitive, sharp, polished, professional and very motivated. Success breeds success.

They also enjoy learning new topics regularly and advancing their development as the fruits of the training pay out in the winning of much more business.

Frequency: Monthly, Bi Monthly or Quarterly.

Set up: Re anchor them back in the 'learning space' off site.

Example: Usually in the first 2 months we are embedding the messages. So, we are running through what they have just learned, the training highlights, to embed the messages. They learn from us, they learn from each other. Your team can air scenarios for feedback and everyone learns. It's a fantastic opportunity to embed the core messages and then for them to recap on their learnings and how they are applying them.

This injection of sales training pumping through

your office closely following the sales training assists the team in being open to new ideas, unpack what they do with maturity and an opportunity to hear each others success stories with improved, positive, smarter language.

Topics: Often the evolution is to the next program (see below and on page 6) and with that we can, as always, tailor it so that it covers every topic that you require.

FEEDBACK

Manny Rodrigues
Business
Development
Manager at
Gumtree.com

It was great to get training off someone who is in the sales field and not just someone reading off a script. I found the course very rewarding and I have been in the sales field for over 14 years. This was one of the most rewarding training courses I have attended. All my colleagues agreed with me. Often you forget so much being in the sales field so long so this was a great refresher as well as bringing me useful tools and methods which I put to use immediately.

Jordan Smith

From the very first session with Charmaine it was like a light bulb going on! That first session changed the way I think about sales and my clients! I now enjoy monthly sessions and therefore many more lightbulb moments.

Richard Gartner
Proprieter, Safe T Stop

Learned enormous amount on how to close the sale in a faster way. The course has helped us enormously – sales are up and the sales team are more positive.

Elena Di Palma

Charmaine really understands how to motivate Sales People. Her ideas and tools are put forward in such a way that the team can implement them immediately to get results.

Sally Cull

Charmaine's sessions are engaging, enlightening and full of very useful, practical sales methods to drive revenue.

Darren Matthews
APAC Sales Director
at CBS Interactive

As a sales professional with 27 years experience; I was admittedly dubious of the value that yet another sales training session would deliver.

I thought I'd heard everything about 'active listening', could have written and sold a book about 'buying behaviour' and would receive a thumbs up if ever there was a test about reading 'body language'. How wrong I was.

Charmaine delivered new information on these topics in a informative and uniquely engaging way and did so while explaining the neurological effect of her methods which helped my team and I truly understand their value.

I would recommend Charmaine to any sales professional regardless of their perceived knowledge and look forward to implementing her teachings in the years to come."

GET IN TOUCH

We care about you, your needs, your goals, your vision.

Thought and consideration has been put into each and every evolving exercise to ensure participants are engaged, enthused and know how to operate to maximum effectiveness. The result is confident individuals that go out and find, recognise and convert every opportunity. Easily. With integrity.

Sales training offers us a lot of psychology – firstly your team feel invested in, secondly we handle the job (with you) of getting them open minded and ready by tasking and liaising before an workshop. Thirdly, we understand human behaviour, how to motivate people. We know if they are relaxed and having fun they embrace and pick up lessons quicker. We teach about how to be

in charge of our 'state'. So, that means how to be positive, congruent and bullet proof regardless of the challenges.

The essential training though, for behavioural change, comes from the Inner Game. 'Mindset' and 'Skills' have equal importance. The right mindset is, quite frankly, a game changer.

We look forward to hearing your needs and seeing how we may be of support to you during this next phase of you and your sales team's career.

(Public workshop places can be booked directly through the website on the Public Workshops)

Charmaine was hired to inspire our 140 sales managers. Her brief was to help them understand how to grow their business. She delivered an interactive, engaging, practical workshop over two days. Her vast experience of sales was evident as she effortlessly answered questions on sales and passed on years of sale experience, tricks of the trade and enlightening insights all in their language, relevant to their day to day situations.

Each Sales Manager was motivated, up skilled and ready to take the learnings back to their stores. Easy to communicate with, Charmaine was diligent, professional, totally flexible and delivered much more than the brief.
